

## Welcome!

At McCall Rehab. & Care Center we help adults of all ages recover from surgery, injury, or serious illness in a quiet, compassionate, and clean environment. Rehabilitation therapy, exercise groups, pet therapy, and a wide variety of activities are offered daily in a peaceful setting. Activities include arts and crafts, resident outings, Holiday celebrations, birthday parties, and many others. We

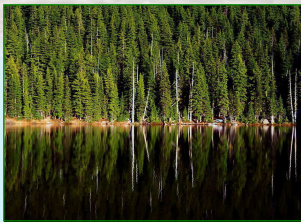

also encourage family members

to visit and participate in the active lives of their loved ones.

## Our Pledge

Our professional team understands the importance of providing peace of mind and a comfortable, caring place for residents. Our staff makes every effort to provide residents and their family with a warm and inviting

environment. This allows residents and families to relax and feel welcomed in our facility. By working together with McCall Rehab. & Care Center staff, the resident and his/her family, we will create a customized care plan designed to meet individual needs and goals of your loved one.

## Quality Care

We accept residents with a wide range of disorders and conditions, including residents recovering from hip replacements, knee surgeries or other orthopedic conditions. We are also equipped to care for residents with head injuries, strokes, open heart surgery, and surgical/chronic wounds.

### Our Services:

- **Skilled nursing services**
- Intravenous therapy
- Pain management
- Post-surgical stabilization
- Non-acute cardiac care
- Adult day-care
- Respite care
- Rehabilitation therapies

## Reaching Goals

Rehabilitation therapy services help individuals achieve their highest possible level of independence. Based on the treatment program prescribed by the physician, our experienced therapists build on each resident's skills to assist them in reaching their maximal functional potential.

- Our Physical Therapy program strives to restore normal movement and function while addressing issues of pain, weakness, loss of motion, or lack of coordination.  

- Our Speech Therapy program helps rebuild communication skills and language impairments, including those related to hearing loss, speech, and swallowing disorders.
- Our Occupational Therapy program helps residents restore strength, safety, and independence in activities such as dining, bathing, dressing, and homemaking.

## A New Beginning

Family members and friends play an important role in helping residents retain independence. Families are encouraged to participate in our community through recreational activities and volunteer opportunities. When a resident is ready to leave our facility and return home, we help plan a safe transition and identify available resources to make the homecoming easier.

## Caring For Our Community

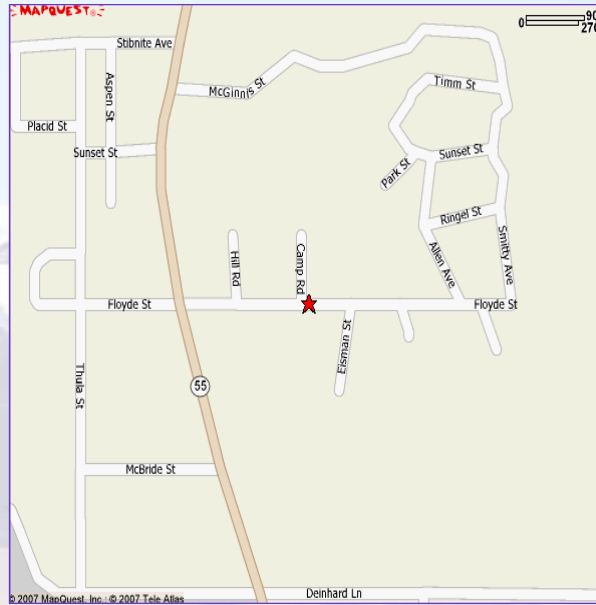

McCall Rehab. & Care Center specializes in caring for people with complex medical conditions. Our goal is to assist residents so that they may return to the community whenever possible. We provide short and long term care in the McCall community.

Our wide range of skilled nursing services include:

- Post-acute care for residents with complex conditions requiring intensive nursing, such as wound care and IV therapy.
- Specialized rehabilitation for residents recovering from stroke, head injuries, hip fractures, etc. These services include physical, occupational, and speech therapies.
- A dedicated skilled nursing rooms

McCall Rehab. & Care Center always serves delicious, nutritious, home-style meals under the direction of a Registered Dietician.

We accept Medicare, Medicaid, most managed care plans, private insurance, and private pay.
