WELCOME!

Quinn Meadows Rehabilitation and Care Center, Pocatello's newest transitional care and rehabilitation facility, offers many unique services to Pocatello and the surrounding area. Quinn Meadows is the only facility in the region that can provide skilled nursing care in a luxurious environment that includes private suites with private showers. Quinn Meadows can care for adults of all ages that are recovering from surgery, injury, or serious illness. Quinn Meadows boasts a 4,200 sq. foot therapy area including a large rehab pool. Quinn Meadows provides physical therapy, occupational therapy, and speech therapy 7 days a week to patients in need of specialized rehabilitation and care. Quinn Meadows also provides daily activities for patients, allowing an enjoyable and comfortable experience during their recovery process. Quinn Meadows encourages family members to be very involved in their loved one's rehabilitation and provides an elegant private family dining available upon request.

OUR COMMITMENT AND PROMISE:

Our professional staff understands the importance of providing peace of mind to our patients and their families in a comfortable and compassionate environment. Our staff makes every effort to provide residents and their families with a warm and inviting atmosphere. By working together with Quinn Meadows staff, the patient and his/her family, we will create a customized care plan designed to meet individual needs and goals of your loved one.

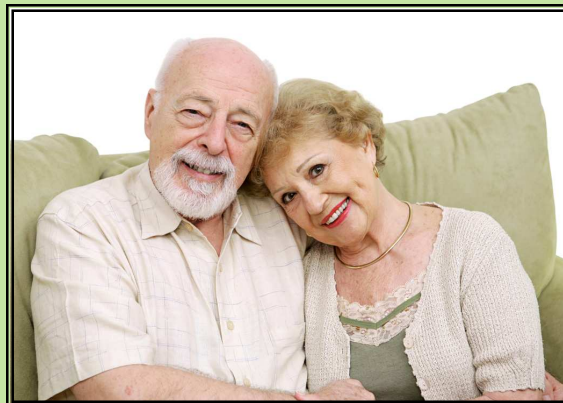

QUALITY CARE:

We accept patients with a wide range of disorders and conditions, including individuals recovering from hip replacements, knee surgeries, back surgeries, or other orthopedic conditions. We are also equipped to care for residents with head injuries, stroke, open heart surgery, and surgical/chronic wounds.

Our Services:

- Skilled Nursing Services
- Intravenous therapy
- Pain management
- Post surgical rehabilitation
- Non-acute cardiac care
- Physical, Occupational, and Speech therapy

REACHING GOALS:

Rehabilitation therapy services help individuals achieve their highest possible level of independence and function. Based on the treatment program prescribed by the physician, our experienced therapists establish realistic goals for each patient and assist them in reaching their maximal functional potential.

Quinn Meadows physical, occupational, and speech therapy is provided by Pocatello Physical Therapy Clinic, a company that has provided excellent service to the Pocatello area for over 30 years. Rehabilitation services are provided in a 4,200 sq. ft. state-of-the-art physical therapy facility complete with a rehabilitation pool and specialized equipment including an "unloader" treadmill for safe and easier ambulation training.
